TOWN & COUNTRY
COLLECTION

All our kitchens are constructed using traditional materials and methods with an obsessive attention to detail. We are confident that you will not find comparable kitchen's built quite like this.

That's because our way, we believe, is the best way and that way is the Mereway.

MerewayKitchens®

We recognise that we have a vital role in helping to protect the local and global environment and are proud to use a wide range of sustainable products throughout the production process. These include timbers that have been FSC certified or Pan European approved, or have originated from managed forests.

Durability

The laminate surfaces are designed to withstand the stresses & strains of daily life, due to their high resistance against scratches and impact. Compared to real timber, our worktops are less prone to fading and changes after being exposed to direct sunlight. They are incredibly easy to look after, and unlike solid wood or stone surfaces, require minimal maintenance or repair.

Stain Resistance

To remove those hard stains such as red wine and coffee, simply use a damp cloth & mild surface cleaner to easily remove in minutes.

Impact Resistance

Every now and then, items stored away in cupboards can fall onto the surfaces. Our high density worktops are designed to withstand the impact of such items.

Heat Resistance

UrbanTop worktops have been rigorously tested against surface temperatures of up to 180 degrees and are designed to cope with the daily demands of a busy kitchen. We do however recommend the use of heat deflector plates above all built under ovens and dishwashers to protect the underside of the worktop surface.

Lightfastness

Unlike real timber, our laminate worktops are significantly less prone to fading and changes in colour caused from exposure to sun light.

Butchers Block

To create an authentic 'real wood' look UrbanTop have developed an 'End Grain' effect edging we call Butchers Block that is applied to the worktops at both ends giving the impression of real timber.

5 Year Guarantee

We're so confident that you won't be disappointed with the quality of our worktops that they come with a 5 year guarantee!

With extensive experience in both development and design, we are proud to offer one of the most highly specified cabinets available. All our kitchens are made to fulfil your individual order, and are manufactured to the very highest of standards.

Our quality drawer boxes are fully extendable allowing unrestricted access to the contents, and our 'soft close' system cushions both doors and drawers protecting fingers, cabinets and contents.

Choose from handles, plinths, feature leg systems and end panels to complete the look.
